CONTENTS

Volume 33 Number 1 February 1998

1 Derek Land's contribution to food science with particular reference to the Journal *Harry E. Nursten*

7 Sensory analysis *John R. Piggott, Stephanie J. Simpson & Simon A. R. Williams*

19 Chemical tainting of foods *Donald S. Mottram*

31 Microbiology of food taints *Frank B. Whitfield*

53 Physical chemistry of flavour *Andrew J. Taylor*

63 The molecular biology of olfactory perception *Peter W. Goodenough*

Volume 33 Number 2 April 1998

79 Editorial *Martin Adams*

81 Bovine spongiform encephalopathy (BSE) – a review *J. Ralph Blanchfield*

99 Review of the public health safety of products from aquaculture *P. Howgate*

127 The occurrence of human pathogenic *Vibrio* spp. and *Salmonella* in aquaculture *Anders Dalsgaard*

139 Antibiotic use in aquaculture: development of antibiotic resistance – potential for consumer health risks *D. J. Alderman & T. S. Hastings*

157 Field investigations on epidemiology and control of fish-borne parasites in Korea *Han-Jong Rim*

169 Aquaculture production and potential for food safety hazards in sub-Saharan Africa: with special reference to Malawi *S. K. Chimatiro*

177 Incidents of food poisoning and food-borne diseases from 'new' or 'unexpected' causes: can they be prevented? *Wilkie F. Harrigan*

191 Book reviews

Volume 33 Number 3 June 1998

199 Modelling the change in colour of potassium sorbate powder during heating *Jung H. Han & John D. Floros*

205 Novel food products from genetically modified crop plants: methods and future prospects *Jim M. Dunwell*

215 High-performance liquid chromatography analysis of nutmeg and mace oils produced by supercritical CO_2 extraction – comparison with steam distilled oils – comparison of East Indian, West Indian and Papuan oils *Dorothea Ehlers, Jolanta Kirchhoff, Dieter Gerard & Karl-Werner Quirin*

225 Kinetics of moisture uptake and soluble-solids loss by puffed breakfast cereals immersed in water *Maria de Fátima Machado, Fernanda A. R. Oliveira, Vassilis Gekas & R. Paul Singh*

239 Emulsifying properties of some legume proteins *Emmanuel T. Akintayo, Kayode O. Esuoso & Aladesanmi A. Oshodi*

247 The characteristics of percolation olive oils produced with a new processing enzyme aid *Alfonso Ranalli, Gabriella De Matttia & Maria L. Ferrante*

259 Effect of barrel temperature and screw speed on rapid viscoanalyser pasting behaviour of rice extrudate *Manisha Guha, Syed Zakiuddin Ali & Suvendu Bhattacharya*

267 Mass transfer modelling of the osmotic dehydration of some fruits *Nicolaos M. Panagiotou, Vaios T. Karathanos & Zacharias B. Maroulis*

285 Isolation and characterization of a 'quinone-trapping' substance from a crude *Carica papaya* protein preparation *Florence Richard-Forget, Muriel Cerny, Nina Fayad, Thierry Saunier & Patrick Varoquaux*

297 Control of microbial growth on rice sprouts *Valerie Piernas & Joseph P. Guiraud*

307 Characterization of the Beninese traditional ogi, a fermented maize slurry: physicochemical and microbiological aspects *Mathurin Coffi Nago, Joseph D. Hounhouigan, Noel Akissoe, Elisabeth Zanou & Christian Mestres*

317 The effect of freezing and thawing on the magnetic resonance imaging parameters of water in beef, lamb and pork meat *Stephen D. Evans, Kevin P. Nott, Ashwini A. Kshirsagar & Laurance D. Hall*

329 Some factors affecting Norway lobster (*Nephrops norvegicus*) cuticle polyphenol oxidase activity and blackspot development *Ivan Bartolo & Else O. Birk*

Volume 33 Number 4 August 1998

337 Editor's introduction to the first regional issue *Peter Goodenough*

339 Suitability of hybrid tilapia (*Oreochromis niloticus Oreochromis aureus*) muscle for gel formation *Chen-Huei Huang, Hong-Thih Lai & Yih-Ming Weng*

345 The optimization of a laboratory processing procedure for southern-style Chinese steamed bread *S. Huang, K. Quail & R. Moss*

359 Effects of high pressure treatment on the quality and storage of kimchi *Kyung-Hyun Sohn & Hyong-Joo Lee*

367 Effect of harvesting time and fruit size on titratable acidity, soluble solid and distribution of limonin in Thai tangerine juice *Savitree Jungsakulrujirek & Athapol Noomhorm*

375 The use of response surface methodology to optimize the Maillard reaction to produce melanoidins with high antioxidative and antimutagenic activities *Gee-Dong Lee & Joong-Ho Kwon*

385 Functional properties of chemically modified proteins of sardine meal defatted with 1-propanol *Yuji Kawai, Satoshi Fujimura & Koretaro Takahashi*

Volume Contents

393 Dielectric analysis of hen egg white with denaturation and in cool storage *Yongjun Lu, Mamiko Fujii & Hiroshi Kanai*

401 Application of competitive indirect enzyme-linked immunosorbent assay (Ci-ELISA) for monitoring the degree of frozen denaturation of bovine myosin *Ju-Woon Lee, Jong-Heum Park, Seong-Bae Kim, Cheon-Jei Kim, Chang-Kee Hyun & Heuyn-Kil Shin*

411 Monitoring thermally induced conformational changes in bovine muscle myosin solutions by competitive indirect enzyme linked immunosorbent assay (Ci-ELISA) *Ju-Woon Lee, Jong-Heum Park, Cheon-Jei Kim & Heuyn-Kil Shin*

419 Functional properties of porcine blood globin decolourized by different methods *Jeng-Huh Yang & Chin-Wen Lin*

429 Normalized particle residence times as affected by process parameters in a vertical scraped-surface heat exchanger *Jun H. Lee & Rakesh K. Singh*

435 Letter to the Editor – What is the potential for the production of high-maltose syrups? *Zhiming Wang*

437 Book review

Volume 33 Number 5 October 1998

439 Characterization of rheological properties of systems containing sugar substitutes and carrageenan *Murat Ozdemir & Hasan Sadikoglu*

445 Reduction in cholesterol and fractionation of butter oil using supercritical CO_2 with adsorption on alumina *Rahoma S. Mohamed, Guilherme B. M. Neves & Theo G. Kieckbusch*

455 Emulsifiers affect the texture of pastes made from fermented and non-fermented cassava flours *Festus A. Numfor, William M. Walter Jr. & Steven J. Schwartz*

461 Shear stiffness and density in potato parenchyma *Martin G. Scanlon, Andrea J. Day & Malcolm J. W. Povey*

465 Effects of storage atmosphere on *Listeria monocytogenes* and competing microflora using a surface model system *Gillian A. Francis & David O'Beirne*

477 Effects of the indigenous microflora of minimally processed lettuce on the survival and growth of *Listeria innocua* *Gillian A. Francis & David O'Beirne*

489 Transport phenomena in immersion-cooled apples *Tiphaine Lucas, Jérôme François & Anne-Lucie Raoult-Wack*

Volume 33 Number 6 December 1998

501 Modelling average concentrations of salt and salt substitute in partial or total volumes of semi-hard cylindrical cheeses *Susana E. Zorrilla & Amelia C. Rubiolo*

509 Interpretation of the force-deformation curves of soaked red kidney beans (*Phaseolus vulgaris* L.) *Nissreen Abu-Ghannam*

517 A modified colorimetric method for the estimation of β-cyclodextrin using phenolphthalein *Channa Basappa, Pramila Rao, D. Narasimha Rao & S. Divakar*

521 Use of gamma irradiation and sulphur dioxide to improve storability of two Syrian grape cultivars (*Vitis vinifera*) *M. Al-Bachir*

527 Effect of dry heat on the in-vitro digestibility and trypsin inhibitor activity of chickpea flour *M. C. Marquez, V. Fernandez & R. Alonso*

533 Effect of gamma-irradiation on the phenolic acids of some Indian spices *P. S. Variyar & P. Thomas*

539 Water changes in canned dry peas and beans during heat processing *Apostolos Thanos*

547 Book reviews

553 Author index

555 Subject index
